# Factory Refurb Copiers

business partner

## HP factory refurb Copiers at an almost unbelievable price.

We've gotten our hands on some factory refurbished copiers and are offering them to you at a low price. Our two featured models this month are the HP M4345 MFP & HP M5035 MFP. With all the standard options of a copier, a small footprint and a low total cost of ownership these are a great addition to any office.

These machines come to you as if they were brand new from the manufacturer with the same warranty and everything. You can also put these on our Total Imaging Care (TIC) Program for free parts and labor for the life of the machine.

Ask your Account Manager for more specific information on a particular machine. Or, visit [iotsolutions.com/hpcopiers](http://iotsolutions.com/hpcopiers)

### HP M4345 - starting at \$1999 (regularly \$2599)
